Once a student has submitted the activity, it cannot be edited or deleted.

A search bar and filters for Assignment Type, Status, and Due Date are available for more efficient locating of assignments.

**Remember:** The **<Auto-Submit>** is a feature that activates automatically when the time to complete an activity runs out and the student hasn't clicked "Submit." At that moment, the system automatically submits the answers the student managed to complete, ensuring that their work isn't lost and the teacher receives whatever was answered.

## How is it displayed?

If the student completed only 1 out of 4 assigned activities, a dash (–) will appear in the <Score> section for the activities that were not completed, indicating they were not submitted. The overall average will reflect only the grade obtained in the activity that was completed.
