The **Settings** -> **Classes** option allows you to create and import classes, as well as have a complete view of them. It shows relevant information, such as:

- Class name
- Grade
- Start and end dates
- iRead (active/deactive)
- Class code
- Number of students

The screenshot shows the 'Classes' management interface. At the top, there is a navigation bar with 'Go to dashboard' and 'Classes'. Below this is a sub-navigation bar with 'Classes', 'Links', 'Users', 'iRead Activation', and 'Institution'. The main content area features a search bar, date filters for '09/09/2024' and '31/12/2026', and dropdown menus for 'Level' and 'Grade'. The table below lists several classes with columns for Class Name, Grade, Dates, iRead status, Code, and Students.

The **Training manager** has access to all the information of the created classes, can import classes, and create new classes.

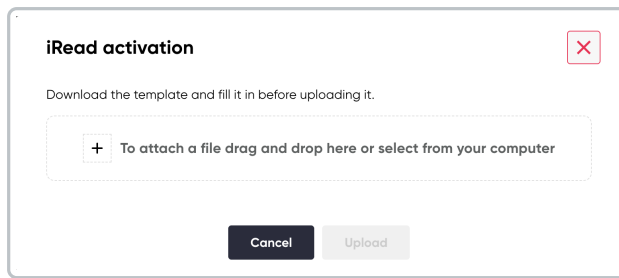

The list shows essential information about the class such as: name, level, start and end dates, the option to enable/disable iRead, class code, and number of students.

The platform is equipped with a search filter to streamline class management and offer an overview of them, along with options to filter by start/end date or level.

Bulk operations:

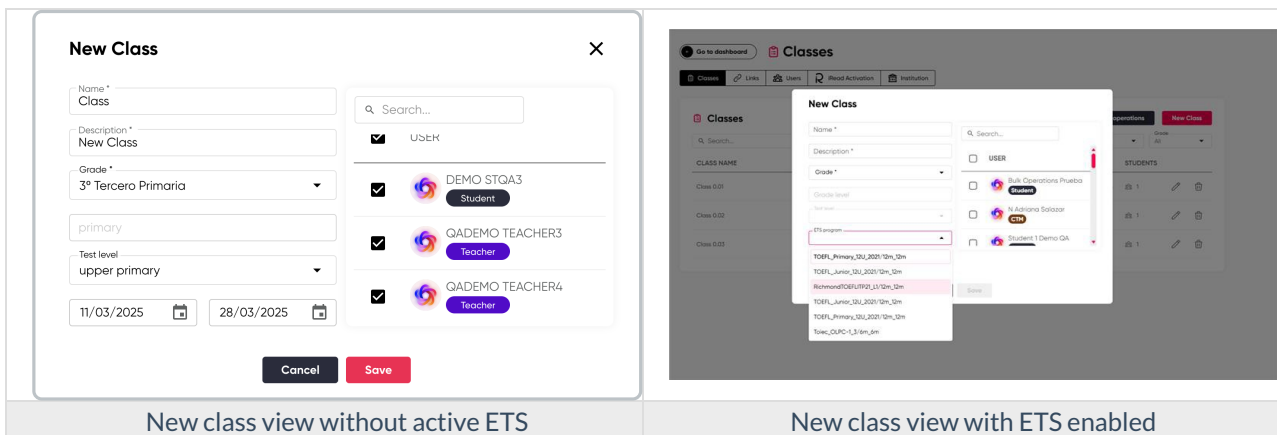

Create a new class:

The Training Manager can create new classes. Follow these steps to register the class with the following information:

How to do it?

1. Click on New class.
2. Enter the Name, Description, Grade (selecting the grade automatically assigns the level), Test Level, and the start and end dates of the class.
3. Select the users.
4. Click Save.

What is ETS?

Within Studio, this refers to the Educational Testing Service (ETS).
