

Why is the Manual Marking checkbox not enabled?

03/23/2026 8:28 pm EDT

[Leer artículo en español](#)

The **Manual Marking** checkbox may not be enabled for one of the following reasons:

- The student has not submitted the activity.
- The student must click the **<Submit>** button upon completing the activity. If they don't, the assignment will remain marked as "in progress" and cannot be graded manually.
- The assignment is still open and **auto-submit** has not been triggered.
The system automatically submits the activity 24 hours after the due date. Until this happens, the **<Manual Marking>** checkbox will remain inactive if the student hasn't submitted it manually.

Suggestion: Check whether the student has already submitted the assignment and whether the activity has been closed. If not, you can either wait for the auto-submit to occur or ask the student to submit the activity manually.
